

1表(90-97) 90頁  
下巻 第1表 医科診療件数・診療実日数・回数・点数 全年齢一一般医療一老人医療・病院(種類別)一診療所(有床一無床)・診療行為(小分類別)

Table (A) showing medical statistics for 1997. Columns include age groups (全年齢), general medical (一般医療), elderly medical (老人医療), hospital (病院), psychiatric hospital (精神病院), nursing home (結核療養所), special hospital (特定機能病院), etc. Rows list various medical procedures like injections (注射剤), ointments (塗り薬), and materials (材料).

Table (B) showing medical statistics for 1998. Columns include age groups (全年齢), general medical (一般医療), elderly medical (老人医療), hospital (病院), psychiatric hospital (精神病院), nursing home (結核療養所), special hospital (特定機能病院), etc. Rows list various medical procedures like injections (注射剤), ointments (塗り薬), and materials (材料).

Table showing medical treatment statistics for general medical hospital admissions. Columns include hospital type (e.g., General Hospital, Psychiatric Hospital, etc.), treatment behavior (e.g., Injection, Medication), and various counts like number of cases, actual treatment days, and points. Includes red circles highlighting specific data points.

(正)

Table showing medical treatment statistics for general medical hospital admissions, identical to the first table. Includes red circles highlighting specific data points.

(原)

Table (原) showing medical treatment data. Columns include treatment type (e.g., 注射針, 薬剤小計), general/elderly patient status, fixed points, and detailed counts for various bed types (20~49, 50~99, 100~199, 200~299, 300~499, 500+). Red boxes highlight specific rows in the '注射針' and '薬剤小計' sections.

(正)

Table (正) showing corrected medical treatment data. The structure and columns are identical to the (原) table, but with adjusted values in the '注射針' and '薬剤小計' sections to reflect corrections. Red boxes highlight the corrected data points.
